

**MASTER BUILDERS**  
SOUTH AUSTRALIA

# STRONG BUILDING, STRONG ECONOMY, RESILIENT STATE

## Working together to build our state for a stronger future!

*Building and construction directly and indirectly employs hundreds of thousands of South Australians and will play a lead role in our economic and social recovery from COVID-19. According to the ABS every \$1 million spent on construction generates \$2.9 million of economic output including 37 jobs. Construction activates training, creates demand for SA goods and services and builds communities. We must invest in our future by supporting jobs and growth today. It's time to revitalise the built environment of our city and state for the safety and prosperity of all South Australians.*

**Master Builders SA calls for a centrally coordinated government capital works program focusing on major "BUILDING" construction projects currently under consideration.**

**New City Stadium**

A new city sporting complex will create jobs during and after the construction phase.

**New Women's and Children's Hospital brought forward**
