

# MASTER BUILDERS SA BRICKLAYING

MASTER BUILDERS  
SOUTH AUSTRALIA

## What does it mean to be a Bricklayer?

Our Bricklaying Apprentices are given the opportunity to be involved in both residential and commercial projects.

When starting your apprenticeship, you will be responsible for laying bricks, measuring

working areas, repairing, maintaining and building walls, chimneys, fireplaces and decorative masonry work, and more.

A bricklayer may also work with a host to estimate the amount of materials that will be used and the costs associated.

Bricklayers will work with clay bricks, concrete blocks and other types of building materials in mortar.

Bricklayers will have the opportunity to work outdoors on construction sites and in all weather conditions.

My job has so much variety and over the course of my apprenticeship I've learnt new skills to take further in my career.

- James Harrison, Bricklaying Apprentice
